

**Glenbard 87 School District African American Female Summit College Fair.
Own your future event**

I participate in the Glenbard 87 School District African American Female Summit College Fair. One hundred Females grades from freshman to seniors from all four of Glenbard high schools. These ambitious black young females have been identify by their counselors as college- bound students. They shared a common goal to graduate in four years with as little debt as possible.

This was an exceptional event.

Thank you, to all the staff that made this event possible.
